1. MOXXI VISIBILITY ACTIONS

MOXXI's executive team consists of: Flavia Tauro (University of Tuscia, Chair), Rolf Hut (Delft University of Technology), and Theresa Blume (GFZ German Research Centre for Geosciences, Potsdam).

To increase visibility of the working group, the main action involved setting up a dedicate page on the IAHS website:

http://iahs.info/Commissions--W-Groups/Working-Groups/MOXXI.do

Experts in measurements and observations have been individually involved through person-to-person invitations. Until now we have 71 friends from 16 countries: http://iahs.info/Commissions--W-Groups/Working-Groups/MOXXI/MOXXIs-FRIENDS.do

This group of people receives MOXXI's newsletter (every other month frequency).

A list of relevant paper about topics relevant to MOXXI has also been created to offer a quick overview of the state of the art: http://jabs.info/Commissions--W-Groups/Working-Groups/MOXXI/PLIBLICATIONS do
