

Save the Date -- STAHY 2023

This is the 13th International Workshop on Statistical Hydrology (STAHY) and is organized under the International Association of Hydrological Sciences (IAHS). This will be the first time the workshop is held in the United States. STAHY brings together the international community for scientific discussions and debates on advanced statistical methods for hydrological applications.

November 9-10, 2023

City: Boston, MA, USA

November 8 - Early Career Events

Host location: Northeastern University
