GRAPHIC
DESIGN

Open Competition for Best Graphical Logo

Since 2003, the IAHS has coordinated two scientific decades which set the research agenda worldwide through collaborative forces. IAHS has now initiated a third decade and we'd like to include a new logo that looks professional and feels inspiring. We invite you to create an inspiring and comprehensive logo which aptly depicts the next decade which is entitled **HELPING**, and stands for **H**ydrology **E**ngaging **L**ocal **P**eople **I**N one **G**lobal world. Read more in the [Concept Note](#) The new topic makes a nice trilogy with the previous two decades, ranging from Predictions ([PUB](#)) to Change ([Panta Rhei](#)) to Solutions ([HELPING](#)).

Your logo can be submitted as either .jpeg or .png or .pdf files and in a file size that is small enough to send via email. Please send your logo, together with a short description explaining your thoughts/ideas behind your design, to info@iahs.co.uk before 30 June 2023.

The winner will be selected through an open voting procedure at the IAHS meeting at [IUGG in Berlin](#) this coming July.

Good Luck!
