# HELPING WG

## Decolonisation and Hydrology

# Visions

- Water Research
  - Knowledge generation
- Water Education
  - Knowledge transfer
- Complexity
  - Mobility
  - Procedural barriers
  - Channel for our voices
  - Ambivalent prejudice

# Approach

- Review institutional water policies and the hydrological curriculum
- Organise workshops, seminars, and conferences that address issues of equity.
- Identify practical approaches to incorporate diverse perspectives, indigenous knowledge, and decolonial methodologies into teaching materials.
- Engage local communities in discussions related to water research to co-decide options by respecting traditional wisdom and incorporating it into hydrological practices.
