# IAHS - Strategic UN-collaboration (SUN) working group

Mojtaba Shafiei, Norwegian Institute of Bioeconomy Research (NIBIO)

# Strategic UN-collaboration (SUN) Working Group: A Synergy Reinforcement for IAHS-HELPING

The dynamic **HELPING** Strategic Plan creates opportunities for closer alignment and cooperation with the UN esteemed science-policy hydrology related programs.

## SUN Vision

Supporting the implementation of IAHS-HELPING's Strategic Plan by creating synergies with the UN science-policy hydrology related programs at both local and global levels

### Area of Activity (Goal)

**Goal A:** Designing and implementing capacity-building programs

Short-term goals

**Goal B:** Developing collaborative publications

**Goal C:** Establishing a resources hub or a platform

Mid- and long-term goals

**Goal D:** Developing some collaborative initiatives

### Initial 2-year plan of SUN Working Group:

- I. Conduct a series of webinars** that introduce hydrology-related science-policy initiatives
- II. Collaboratively draft one paper** (after analyzing knowledge, research and policy gaps).
- III. Initiate the development of a webpage platform** (reference for members and hydrological community).
