

InterPore2021

13TH ANNUAL MEETING

EDINBURGH, UK

31 MAY – 3 JUNE

SHORT COURSES: 30 MAY & 4 JUNE

THE PROGRAM

Presentations on a wide variety of porous media processes in very diverse applications, such as:

- Membranes
- Food
- Paper and textiles
- Geological reservoirs
- Biological tissues
- Filters
- Wood
- Soil

High-quality and lively
Poster Presentation
Sessions and Exhibitions.

The **scientific program** will cover most porous media subjects, including:

- **Imaging, modelling and simulation**
- **Monitoring & characterization methods**
- **Experimental & simulation methods**
- **Uncertainty quantification & risk analyses**
- **Forward & inverse modelling**

for **pore-, lab- and field-scale academic, environmental and industrial problems.**
