

Invitation and aims

The Laboratory of Georesources (LGR) and the Tunisian Clays Group (TCG) will organise and host the First International Congress of Atlas Georesources (AGIC) from March 20 to March 22, 2017 in Hammamet, Tunisia.

AGIC cordially invites researchers, policy makers, practitioners, students, social enterprises and social economy from all countries to share their knowledge, research and discuss challenging advances in geosciences and their applications for human being development.

Tracks

AGIC will cover theoretical and applied research related to geosciences.

T1: Basin Geoexploration

- Structural Geology
- Sedimentology
- Geodynamics
- Stratigraphy
- Geophysics
- Geochemistry

T2: Geomodelling and Geostatistics

T3: Water Resources and Modelling

- Hydrology
- Hydrogeology
- Integrated water Management

T4: Energy

- Fossil energy
- Conventional, unconventional energy
- Geothermal system exploration
- Resource mapping and assessment

T5: Geomaterials and Mines

T6: Environment and Climate Change

T7: Geohazards and Vulnerability

T8: Geomatics

- GIS
- Remote sensing

T9: Soil sciences and Modelling

- Soil erosion
- Soil pollution and remediation

Important dates

Deadline for submission: **July 30, 2016**

Notification of acceptance: **December 15, 2016**

Deadline for registration: **February 15, 2017**

Please see the website for further explanations and instructions. www.certe.rnrt.tn

Abstract submission

AGIC anticipates more than 200 participants around the globe with thought provoking Keynote lectures, Oral and Poster presentations. Abstract template is available to download from the conference website. Abstracts can be in French or English but must be submitted electronically to agic2017@gmail.com.

Authors should indicate the suggested track and whether they relate to a poster or an oral presentation. Full length papers may be submitted and will be evaluated for further publication in a special issue.

Registration, fee and payment

Registration

Intending participants can confirm their participation by filling the registration form available on the conference website.

Fee

| | <i>TCG Member</i> | <i>Non-member</i> |
|----------------------------|-------------------|-------------------|
| <i>Researcher/Academic</i> | <i>TND 350</i> | <i>Euro 250</i> |
| <i>Student</i> | <i>TND 250</i> | <i>Euro 150</i> |
| <i>Non-Academic</i> | <i>TND 500</i> | <i>Euro 400</i> |

The registration fee includes hotel accommodation, participation to all sessions, conference material and proceeding, coffee breaks and meals. **Not** included is the **field trip**. Participants who want to join us during the field trip must book for it separately by filling the field trip registration form available on the conference website.

Payment

Registration for the AGIC is secured via payment of the appropriate registration fee to the following bank account:

Association Tunisienne des Argiles
IBAN: TN 59 11 018 0021439 008 788 09
Code BIC : UBCITNTT
Matricule Fiscal: 1147992/S

** Please do not forget to indicate your first and last name on the payment. For participants who cannot secure the payment by bank transfer AGIC offers them the possibility to pay the fee on-site either by cash or credit card at the reception desk on the first day of the conference.*

For any questions about the Conference registration process or need additional information, please contact the organization team at agic2017@gmail.com

Process selection and evaluation

The Scientific Committee will review all contributions based on quality and relevance and decide whether the accepted paper is intended for a poster or oral presentation. All accepted submissions are held in confidence for publication leading up to the conference. Submissions received after the deadlines (see "Important Dates") may not be considered. Accepted submissions not presented by the author(s) during the conference will not be included in the conference proceeding.

Outstanding contributions will be invited to submit a manuscript for possible publication in a special issue in a peer reviewed international journal.

Please see the website for further explanations and instructions. www.certe.mrt.tn

Field trip

The fieldtrip will guide you through the historic Temple of Water in Zaghouan and its famous aqueduct and canal network built in the 2nd century BC under the Roman Emperor Hadrian. The aqueduct used to carry water from the city of Zaghouan to the city of Carthage over 130 kms away. The site is located in the Mountain of Zaghouan and you will be guided across the Zaghouan belt which offers a large diversity of geological features and amazing geodynamic evolution history that shaped the landscape and the ancient civilizations.
