

Sustainable water resources management in high mountains in the Baltic Sea Region

WORKSHOP

Zakopane, Poland
10th – 13th June 2019

FIRST CIRCULAR

<http://geo.uj.edu.pl/konferencja/tatra2019>

The Baltic University Programme, the Institute of Geography and Spatial Management at the Jagiellonian University in Kraków and the Tatra National Park have a great pleasure to welcome to the 2nd International Hydrological Workshop **Sustainable water resources management in high mountains in the Baltic Sea Region**. The Workshop will be held in Zakopane (Polish Tatra Mountains) from June 10th to 13th, 2019.

The **aim** of the workshop is to get a relevant knowledge about new monitoring and sampling techniques for analyzing hydrological processes and organizing a hydrological monitoring network addressed to different purposes in the high mountain region, and to get a skill in hydrological measurements with modern instruments applied in hydrological research.

The workshop is **addressed to young scientists** (PhD students, bachelor and master degree students and other).

During field works all participants will have an opportunity to take part in hydrological measurements with modern instruments and observe a hydrological monitoring system operating in the Tatra National Park supervised by hydrologists of the Department of Hydrology, Jagiellonian University.

Participation in the workshop gives an opportunity to get 3 ECTS and Diploma signed by three partners: the Director of the Baltic University Programme, the Rector of the Jagiellonian University, the Director of the Tatra National Park.

Preliminary programme

- 10th June, 3 p.m. travel from Kraków to Zakopane by bus, registration and icebreaker (Zakopane)
- 11th June lectures in the the Educational Center of the Tatra National Park; field works in the Olczyński Creek
- 12th June field works in the Bystra Creek; work in groups on water resources management and hydrological monitoring in the Tatra National Park
- 13th June closing remarks and diploma ceremony, back in Kraków ca. 1 p.m.

General information

1. Location: Zakopane & Tatra National Park

2. Registration

Fill the application form at <http://geo.uj.edu.pl/konferencja/tatra2019/registration>

Deadline is February 28th, 2019

3. Workshop fee is 155 EUR. It includes accommodation (2-3 p. rooms) and meals in Zakopane, local transportation and transportation from Kraków to Zakopane (and back) by bus). All participants must cover travel costs to and from Kraków (Poland) themselves.

4. Grant application

There is a BUP Grant which will cover the costs of participation in the workshop for 12 participants from BUP member universities*. Thus the students and young scientists are encouraged to apply for the grant by filling the application form with motivation letter and reference from a BUP teacher. All participants however must cover travel costs to and from Kraków (Poland) themselves.

The application should be sent to Lyudmyla Babak, Project Coordinator of the Baltic University Programme - lyudmyla.babak@balticuniv.uu.se with deadline January 31st 2019 (application form available at the Workshop web site). List of granted participants will be announced on February 15th 2019.
