## Water is vital, we shall defend

### Water policy in Morocco

The water sector in Morocco has a special interest of the government and is central to the concerns of economic policy because it plays a major role in water security of the country.

A National Water Plan PNE was developed for this purpose.

#### Among the points of the national water strategy:

- allow the country an important water infrastructure
- Improve Access to drinking water.
- to satisfy the needs of industries and tourism
- Develop the large scale irrigation.

### Water Expo & Forum: 1st platform for meetings and North-South trade and South-South of water professionals in Morocco.

AMEPA, Moroccan Association for Drinking Water and Sanitation strength of its experience, organizes the 4th edition of the international water exhibition from 11 to 13 May 2017 in Casablanca. A new meeting opportunity for from stakeholders and international specialists in a space of reflection and exchange of business development.

## Sectors

### Technology

Production - Distribution  
Transport  
Treatment and Recycling  
sanitation  
Softening  
Desalination  
Distillery  
purification  
Extraction  
Pumping  
Drilling  
Construction for stations  
piping  
Monitoring warning  
Analysis-control-Detection  
Prevention-Protection-Safety  
Cleaning-Flushing  
dry cleaning  
Evacuation

### L'environnement

Water conservation

### Irrigation

Automatic watering  
Recovery of rainwater  
Pumping  
Dropwise  
Aspersion  
drilling wells  
spray  
micro irrigation  
adduction  
Systems and means

### Health

Drinking water  
Water & Wellness

### EnR

Photovoltaic  
Wind turbine

### Climat

Actions and technical Struggling  
against global warming

### Eco construction

Actions, materials and techniques for  
better water saving

### Services

banks  
insurance
