

Contents

Preface by <i>Siegfried Demuth</i>	iii
---	-----

1 INTRODUCTION

FRIEND: key achievements and opportunities in international co-operation <i>Alan Gustard & Mike Bonell</i>	3
Human impacts, complexity, variability and non-homogeneity: four dilemmas for the water resources modeller <i>Trevor M. Daniell & Katherine A. Daniell</i>	10

2 DATA

Databases

SIEREM: an environmental information system for water resources <i>J. F. Boyer, C. Dieulin, N. Rouche, A. Cres, E. Servat, J. E. Paturel & G. Mahé</i>	19
Operational management of hydrological extremes using global-scale atmospheric models <i>Arnold H. Lobbrecht, Schalk Jan Van Andel & Frans Van Kruiningen</i>	26
Real-time monitoring and management of point and areal hydrometeorological data in the Athens metropolitan area <i>Maria Mimikou & Andreas Grammatikogiannis</i>	31
Hydrological assessment of Makanya catchment in South Pare Mountains, semiarid northern Tanzania <i>Marloes L. Mul, Hubert H. G. Savenije, Stefan Uhlenbrook & Maurits P. Voogt</i>	37
L'Observatoire de Recherche en Environnement, ORE HYBAM sur les grands fleuves amazoniens / The Environmental Observation and Research project, ORE HYBAM, and the rivers of the Amazon basin <i>Gérard Cochonneau, Francis Sondag, Jean-Loup Guyot, Boaventura Geraldo, Naziano Filizola, Pascal Fraizy, Alain Laraque, Philippe Magat, Jean-Michel Martinez, Luis Noriega, Eurides Oliveira, Julio Ordonez, Rodrigo Pombosa, Frédérique Seyler, Jonathan Sidgwick & Philippe Vauchel</i>	44

Networks

The decline of hydrological data collection for development of integrated water resource management tools in Southern Africa <i>Helen Houghton-Carr & Matt Fry</i>	51
The use of spatial information to improve hydrometric network design and evaluation <i>Cedric Laize & Terry Marsh</i>	56
Modelación hidrológica empleando isoyetas de relieve, una aproximación geoestadística / Hydrological modelling using relief-isohyets: a geostatistical approximation <i>Raúl Becerra-Soriano & Alfonso Gutiérrez-López</i>	62

GIS

The contribution of GIS to hydrological modelling <i>C. Dieulin, J. F. Boyer, S. Ardoin-Bardin & A. Dezetter</i>	68
An evaluation of the potential use of satellite rainfall data for input to water	75

resource estimation models in southern Africa <i>Denis A. Hughes</i>	
Application of digital terrain analysis to estimate hydrological variables in the Luquillo Mountains of Puerto Rico <i>Andrew S. Pike</i>	81
Submodelo de erosión en laderas para modelo precipitación–escorrentía en SIG / A hillslope erosion submodel for use with rainfall–runoff models in GIS <i>Alejandro Dussaillant J.</i>	86
A European case-based reasoning tool to inter-compare hydrological information on water stress among drainage sub-basins <i>Jasper Griffioen, Sophie Vermooten, Neno Kukuric & Slavek Vasak</i>	91

3 HYDROLOGICAL EXTREMES

Low flow prediction and forecasting

Stochastic model of flow duration curves for selected rivers in Bangladesh <i>M. F. Bari & Kh. Md. Shafiul Islam</i>	99
Regionalization of flow duration curves <i>Irina Krasovskaia, Lars Gottschalk, Etienne Leblois & Alexia Pacheco</i>	105
Regionalization of low flow in Costa Rica <i>Alexia Pacheco, Lars Gottschalk & Irina Krasovskaia</i>	111
Low flow estimation in Austria <i>Gregor Laaha & Günter Blöschl</i>	117
Drought propagation through the hydrological cycle <i>Henny A. J. Van Lanen</i>	122
Propagation of drought in a groundwater fed catchment, the Pang in the UK <i>Lena M. Tallaksen, Hege Hisdal & Henny A. J. Van Lanen</i>	128
Predicting low flows in ungauged basins: a hydrological response unit approach to continuous simulation <i>Andrew R. Young, Virginie Keller & Jim Griffiths</i>	134
Temporal and spatial variability of drought in mountain catchments of the Nysa Klodzka basin <i>Tamara Tokarczyk & Wojciech Jakubowski</i>	139
Le dispositif PRESAGES: un ensemble d'outils pour la prévision des étiages / PRESAGES: A collection of tools for predicting low flows <i>Claire Lang, Emmanuel Gille, Didier François & Jean-Claude Auer</i>	145
Multi-model technique for low flow forecasting <i>Mary-Jeanne Adler & Valentina Ungureanu</i>	151
Seasonal forecasting of river flows: a review of the state-of-the-art <i>Jennifer Easey, Christel Prudhomme & David M. Hannah</i>	158
Predicting low flows in ungauged catchments <i>Kolbjørn Engeland, Hege Hisdal & Stein Beldring</i>	163
Drought indices suitable to study the linkages to large-scale climate drivers in regions with seasonal frost influence <i>Anne K. Fleig, Lena M. Tallaksen & Hege Hisdal</i>	169

Flood prediction and forecasting

Sistema de alerta hidrológico de la cuenca del Río Salado, provincia de Santa Fe, Argentina: avances en su implementación / The Salado River basin (Santa Fe, Argentina) flood warning system: advances in its implementation <i>Gustavo Ferreira</i>	175
---	-----

Contents

Impact assessment of measures in the upstream part of Dutch basins to reduce flooding <i>Erik Querner & Menno Rakhorst</i>	180
Propuesta para minimizar el impacto de las inundaciones en una cuenca costera de la costa de Chiapas, Mexico / Proposals for minimizing flooding in the Chiapas coastal river basin, Mexico <i>Martín D. Mundo Molina</i>	186
Numerical estimation of flood zones in the Vistula River valley, Warsaw, Poland <i>Małgorzata Gutry-Korycka, Artur Magnuszewski, Jarosław Suchożebński, Witold Jaworski, Michał Marcinkowski & Michał Szydłowski</i>	191
Sistema de alerta temprana por inundaciones experiencia en El Salvador / Experience of the Flood Early Warning System in Salvador <i>Ana Deisy Lopez Ramos</i>	196
Pronóstico de lluvia sobre territorio cubano al paso de los huracanes Charley e Iván, usando MM5V3 / Rainfall forecasting in Cuba for hurricanes Charley and Iván using MM5V3 <i>Ida Mitrani Arenal, Israel Borrajero Montejo & Arnoldo Bezanilla Morlot</i>	201
Índices y grados de riesgo de inundación comunales en sistemas de alerta: uso de lógica difusa / Indices and grades of regional flood risk in a flood alert system: use of fuzzy logic <i>Arnaldo Santander & Ximena Vargas</i>	207
AIGA: un dispositif d’alerte des crues. Application à la région méditerranéenne française / AIGA: a flood forecasting tool. Application to the French Mediterranean region <i>Jacques Lavabre & Yves Gregoris</i>	214
Impact of the Amazon tributaries on major floods at Óbidos <i>Josyane Ronchail, Jean-Loup Guyot, Jhan Carlo Espinoza Villar, Pascal Fraizy, Gérard Cochonneau, Eurides De Oliveira, Naziano Filizola & Juan Julio Ordenez</i>	220
Bayesian priors based on regional information: application to regional flood frequency analysis <i>Mathieu Ribatet, Eric Sauquet, Jean-Michel Gresillon & Taha B. M. J. Ouarda</i>	226
Flash floods in mountain areas <i>Manfred Spreafico</i>	232
<hr/>	
<i>Rainfall–runoff modelling</i>	
Rainfall–runoff modelling of Bua River basin, Malawi <i>S. H. Mkhandi & P. G. Kumambala</i>	239
Modelación distribuida de la cobertura nival para el pronóstico de volúmenes de deshielo / Estimating snowmelt volume using snow cover distribution modelling <i>Patricio Valck C., Ximena Vargas M. & Mauricio Cartes</i>	244
Essais de modélisation avec peu de données en Afrique de l’Ouest / Trying to model with little data in West Africa <i>Jean Emmanuel Paturel, Christophe Laroche, Lawani Mounirou, Lamine Mar, Sandra Ardoin-Bardin, Alain Dezetter, Gil Mahe & Eric Servat</i>	250
Precipitation elasticity of streamflow in catchments across the world <i>Francis H. S. Chiew, Murray C. Peel, Thomas A. McMahon & Lionel W. Siriwardena</i>	256
<hr/>	

4 HYDRO-CLIMATOLOGY

Precipitation spatial and temporal variability and prediction

- An approach to the vulnerability analysis of intensive precipitation in Cuba 265
Eduardo O. Planos Gutiérrez & Miriam E. Limia Martínez
- Influencia de los embalses y lagos en las intensidades máximas de precipitación / 270
 Influence of reservoirs and lakes on maximum rainfall intensities in Chile
Roberto Pizarro, Claudia Sangüesa & Dayanna Aravena
- Application of a statistical method for medium-term rainfall prediction 275
Zhongmin Liang, Bo Lu & Xiaofan Zeng
- Evaluación de la incertidumbre en la variabilidad espacial de la precipitación 281
 usando un modelamiento multiGaussiano / Evaluation of the uncertainty of spatial
 precipitation variability using a multiGaussian model
Solange Dussaubat, Ximena Vargas & Julian Ortiz
- Deriving the highest persisting monthly 24-hour dew points in Malaysia for the 287
 estimation of PMP *M. N. Mohd Desa & P. R. Rakhecha*
- Multi-decadal variability of rainfall and water resources in Nigeria 294
Olusegun Adeaga
- Relación entre probabilidad de ocurrencia de días con lluvia y tormentas eléctricas 300
 en Casablanca y Camagüey / Relationship between the probability of occurrence of
 rainfall and thunderstorms at Casablanca and Camigüey, Cuba
*Lourdes Álvarez Escudero, Israel Borrajero Montejo, Rosendo Álvarez Morales &
 Laura Aenlle Ferro*
- Causas de la reciente sequía acaecida en la región oriental de Cuba / Causes of the 304
 recent droughts in western Cuba
Braulio Lapinel, Abel Centella, Idelmis Gonzáles, Cecilia Fonseca & Virgen Cutie
- Comportamiento de los días con lluvias intensas en la provincia de Ciego de Ávila 310
 en el período lluvioso y su relación con los procesos sinópticos objetivos /
 Characterization of heavy rainfall days in Ciego de Avila province (Cuba) and the
 relationship with objective synoptic processes
Armando Mursuli Hernández & Orlando L. Córdova García
- A study of the spatial extension of agricultural drought in Cuba and its hyper- 315
 annual trends *Oscar Solano, Ransés Vázquez & María E. Martín*
- Critique statistique des séries des pluies annuelles dans le bassin amont du Fleuve 319
 Sénégal / Statistical analyses of the annual rainfall of the upper Senegal basin
Soussou Sambou & Edmond Nicaise Malanda Nimy
- Impacts of regional land use and land cover on rainfall: an overview 325
*R. A. Pielke Sr, A. Beltrán-Przekurat, C. A. Hiemstra, J. Lin, T. E. Nobis,
 J. Adegoke, U. S. Nair & D. Niyogi*
- Análisis de la Sequía Agrícola establecida en la Republica Dominicana desde 1971 332
 al 2000 / Analysis of agricultural droughts in the Dominican Republic, 1971–2000
*Ransés Vázquez, Oscar Solano, Solangel Yokasta Gonzáles, Leoncio Duarte &
 Daniel Camacho*
-

Large scale variability and teleconnections

- Drought in Costa Rica: temporal and spatial behaviour, trends and the relationship 338
 to atmospheric circulation patterns *Christian Birkel & Siegfried Demuth*
- Associations between Western European air-masses and river flow regimes 344

Contents

<i>David M. Hannah, Donna Bower & Glenn R. McGregor</i>	
Interactions between large-scale climate and river flow across the northern North Atlantic margin <i>Daniel G. Kingston, David M. Hannah, Damian M. Lawler & Glenn R. McGregor</i>	350
Identification of the distribution of hydroclimatic cycles of field observations in Southeast Asia <i>Maria A. Solera-Garcia, Nick A. Chappell & Wlodek Tych</i>	356
Influences of ENSO and SST variations on the interannual variability of rainfall amounts in southern Africa <i>Patrick Valimba, Pierre Camberlin, Yves Richard, Eric Servat & Denis Hughes</i>	362
Diagnóstico de probabilidades de lluvias asociados a eventos del ciclo ENOS en la costa de Ecuador / Assessing rainfall probabilities using ENSO cycle events on the coast of Ecuador <i>Jonathan Cedeño, Telmo De La Cuadra, Karina Abata, Ma. Auxiliadora Merizalde & M. Pilar Cornejo-Grunauer</i>	369
<hr/>	
<i>Climate change and impacts of climate change</i>	
GCM and downscaling uncertainty in modelling of current river flow: why is it important for future impacts? <i>Christel Prudhomme</i>	375
The impacts of climate change on water resources in the Okavango basin <i>Sonja Folwell & Frank Farquharson</i>	382
Exploring the impacts of climate change on water resources—regional impacts at a regional scale: Bangladesh <i>Chak Fai Fung, Francis Farquharson & Jahir Chowdhury</i>	389
Possible impacts of climate variability/change and urbanization on water resources availability and quality in the Benin-Owena River basin <i>J. N. Okpara, L. E. Akeh & A. C. Anuforom</i>	394
Uncertainty in climate change impacts on low flows <i>Martijn J. Booij, Martijn Huisjes & Arjen Y. Hoekstra</i>	401
Climate change impact on reservoir water supply reliability <i>Dana Halmova & Marian Melo</i>	407
Climate change impacts on water resources in Guyana <i>Kailas Narayan</i>	413
Climate change impacts and responses in the Czech Republic and Europe <i>Oldřich Novický, Ladislav Kašpárek & Martina Peláková</i>	418
La variabilité des débits du Rio Amazonas au Pérou / Variability in discharge of the Peruvian Amazon <i>Jhan Carlo Espinoza Villar, Pascal Fraizy, Jean Loup Guyot, Juan Julio Ordoñez Galvez, Rodrigo Pombosa & Josyane Ronchail</i>	424
Utilisation optimale de l'information pluviométrique des MCGA aux échelles hydrologiques au Sahel / Optimal use of GCM rainfall information at the hydrological scale in the Sahel <i>Abdou Ali, Abou Amani, Thierry Lebel & Sidibé Ibrahima</i>	430
Application de scénarii climatiques en modélisation hydrologique: utilisation des sorties GCM / Application of climatic scenarios in hydrological modelling: using GCM outputs <i>Sandra Ardoïn-Bardin, Alain Dezetter, Eric Servat, Claudine Dieulin, Laurence Casenave, Hélène Niel, Jean-Emmanuel Paturel & Gil Mahé</i>	436

Contents

<p>Quel scénario de changement climatique retenir pour une analyse d'impacts? / Which climate change scenario to keep for analysing impacts? <i>Claude Bocquillon, Wajdi Najem & Antoine Hreiche</i></p>	442
<p>Relation entre hydrologie et climat dans le bassin versant de l'Oued Inaouène (pré- Rif marocain) / Relationship between hydrology and climate in the Inaouene River basin, pre-Rifian Morocco <i>Abdelkader El Garouani & Abdellatif Tribak</i></p>	447
<p>Regionalization of a distributed catchment model for highly glacierized Nepalese headwater catchments <i>Markus Konz, Ludwig N. Braun, Stefan Uhlenbrook, Siegfried Demuth & Arun Shrestha</i></p>	454
<p>Climate change impacts on glacial lakes and glacierized basins in Nepal and implications for water resources <i>Suresh Raj Chalise, Madan Lall Shrestha, Om Ratna Bajracharya & Arun Bhakta Shrestha</i></p>	460
<p>Variability of runoff from Alpine basins <i>David N. Collins</i></p>	466
<p>An assessment of the potential impacts of climatic warming on glacier-fed river flow in the Himalaya <i>H. Gwyn Rees & David N. Collins</i></p>	473
<p>El glaciar 15 del Antisana investigaciones glaciológicas y su relación con el recurso hídrico / Glacier 15, Antisana, Ecuador: its glaciology and relations to water resources <i>Bolivar Caceres, Bernard Francou, Vincent Favier, Guillaume Bontron, Pierre Tachker, Rodolphe Bucher, Jean Denis Taupin, Mathias Vuille, Luis Maisincho, Fanny Delachaux, Jean Philippe Chazarin, Eric Cadier & Marcos Villacis</i></p>	479
Trends	
<p>An historical analysis of drought in England and Wales <i>Gwyneth A. Cole & Terry J. Marsh</i></p>	483
<p>The effect of record length on the analysis of river flow trends in Wales and central England <i>Harry Dixon, Damian M. Lawler, Asaad Y. Shamseldin & Paul Webster</i></p>	490
<p>High and low flow trends in a national network of undisturbed indicator catchments in the UK <i>Jamie Hannaford & Terry J Marsh</i></p>	496
<p>Past and future changes in flood and drought in the Nordic countries <i>Hege Hisdal, Lars A. Roald & Stein Beldring</i></p>	502
<p>Changes in runoff regimes in small catchments in Central Europe: Are there any? <i>Ladislav Holko, Andreas Herrmann & Alena Kulasová</i></p>	508
<p>A national study on trends and variations of French floods and droughts <i>M. Lang, B. Renard, E. Sauquet, P. Bois, A. Dupeyrat, C. Laurent, O. Mestre, H. Niel, L. Neppel & J. Gailhard</i></p>	514
<p>Long-term trends and runoff fluctuations of European rivers <i>Pavla Pekarova, Pavol Miklanek & Jan Pekar</i></p>	520
<p>Influence of the North Atlantic Oscillation on spatial and temporal patterns in Eurasian river flows <i>Raimund Rödel</i></p>	526
<p>Análisis del Comportamiento Hídrico en El Salvador: posibles causas e implicaciones / Analysis of river flow trends in El Salvador: possible causes and consequences <i>Adriana Maria Erazo Chica, Tomas Rivas Pacheco & Oscar Hernández</i></p>	533
<p>Methodologies for trend detection <i>Zbigniew W. Kundzewicz & Maciej Radziejewski</i></p>	538

5 ECOSYSTEMS

In stream ecology

- Water demand in the Zhalong Wetland ecosystem *Wang Jian-qun, Han Li & Ma Tie-min* 553
- Estimation of minimum acceptable (compensatory) flow for the rivers of Costa Rica *Sadl Laporte, Alexia Pacheco & Carlos R. Rodriguez* 558
- Hidrologa de laguna albufera Reserva El Yali, humedal RAMSAR, Chile / Hydrology of the El Yali coastal marsh reserve, a RAMSAR site in Chile *Pablo Galdames, Chi Sun & Alejandro Dussailant J.* 563
- Environmental demands for sustainable regulation schemes in the humid tropics *Anny Chaves, Irina Krasovskaia & Lars Gottschalk* 569
-

Flood plains

- Interaction between surface and groundwater in the flooding of riparian wetlands: Biebrza wetlands case study *Tomasz Okruszko, Jaroslaw Chormanski & Dorota Swiatek* 573
- Modelling of inundation patterns on the Pilica River flood plain, Poland *Mustafa Altinakar, Edyta Kiedrzynska & Artur Magnuszewski* 579
-

Water quality

- A global assessment of chemical effluent dilution capacities from a macro-scale hydrological model *Virginie D. J. Keller, Mick J. Whelan & H. Gwyn Rees* 586
- Wet and dry deposition of atmospheric nitrogen in three hydrographic basins in Cuba *Oswaldo Cuesta-Santos, Arnaldo Collazo, Maria Gonzalez & Antonio Wallo* 591
- Application of hydrogeochemical modelling to the characterization and water quality control of coastal karst aquifers *J. R. Fagundo Castillo, P. Gonzalez Hernandez, J. Fagundo Sierra, M. Suarez Munoz, C. Melian Rodriguez & E. Alvarez Varela* 596
- Studying waste load dispersion in Songkhla Lake using a simulation model *Winai Sae-Chew* 601
- Risques d'eutrophisation et de comblement des retenues d'eau au Burkina Faso / Risk of eutrophication and filling-up of small reservoirs in Burkina Faso *Amadou Hama Maiga, Yacouba Konate, Kokou Denyigba, Harouna Karambiri & Joseph Wethe* 606
-

Sediments

- Characteristics of sediment and nutrient flows in the lower reach of the Yellow River *Jianyao Chen, Dong Ke, Xinfeng Zhao, Yoshihiro Fukushima & Makoto Taniguchi* 612
-

Groundwater

- Factors affecting the groundwater regime in the High Tatra Mountains *Miriam Fendekova & Marian Fendek* 617
- A new, physically-based, numerical runoff generation model system for study of surface–shallow groundwater relationships and system reactions to environmental changes *Andreas Herrmann, Matthias Schoniger & Sybille Schumann* 623

Contents

- Isotopic evidence of the overexploitation of karst aquifers *L. F. Molerio León* 629
- Contaminación del acuífero yucateco por lixiviado de residuos municipales /
Contamination of the Yucatan aquifer by leachate from municipal waste 635
Roger González Herrera & Ramiro Rodríguez Castillo
-

Water balance, soils, land cover

- Interpolation of water balance components for Costa Rica *Federico Gómez, Irina Krasovskaia, Lars Gottschalk & Etienne Leblois* 641
- Physical insights into soil water storage in the soil–plant–atmosphere system 646
Urszula Somorowska
- Determination of the soil hydrophysical characteristics and vegetation parameters of a river basin in a permafrost region *Yeugeny Gusev & Olga Nasonova* 651
- Minor changes of water conservation capacity in 50 years of forest growth: analysis with data from the Ananomiya Experimental Forest, Japan *Michio Hashino & Huaxia Yao* 656
- Respuesta de los caudales máximos al manejo de bosques de plantaciones en cuencas experimentales en el sur de Chile / Peak flow changes in a managed-forest experimental basin in southern Chile 662
Andrés Iroumé, Claudia Castillo, Helen Primrose, Anton Huber & James Bathurst
- UNESCO Working Group on the impacts of climate variability and land cover change on flooding and low flows as a function of scale *Günter Blöschl, Sandra Ardoin-Bardin, Mike Bonell, Manfred Dorninger, David Goodrich, Dieter Gutknecht, David Matamoros, Bruno Merz, Paul Shand & Jan Szolgay* 667
- Overview of land cover change in tropical regions *Rudi Drigo* 672
- The impacts of land use/land cover change and climate variability on the hydrology of the Sahel *Gil Mahe* 679
-

Human influences

- Impact des modifications d'habitats (déforestation, aménagements hydro-agricoles, extension des cultures) sur la santé des populations rurales: cas de l'ulcère de Buruli en Côte d'Ivoire / Environment change (deforestation, agricultural-water management, increased cultivation) impact on rural population health: Buruli ulcer prevalence in Ivory Coast 685
Telesphore Brou, Helene Broutin, Mireille Dosso & Jean-Francois Guegan
- Methodologie et application d'une demarche de modelisation hydrologique prenant en compte l'evolution des etats de surface en milieu sahelien d'Afrique de l'ouest / A hydrological modelling approach that allows for evolution of the land surface in African Sahel basins 691
Pierre Diello, Jean-Emmanuel Paturel, Gil Mahe, Bruno Barbier, Harouna Karambiri & Eric Servat
- Efecto de las plantaciones de *Pinus radiata* sobre el recurso agua en Chile / The effect of *Pinus radiata* plantations on water resources in Chile 698
Anton Huber & Andrés Iroumé
-
