Preface by *Attilio Castellarin, Serena Ceola, Elena Toth & Alberto Montanari* v

1 Hydrological processes in a changing environment: Coping with uncertainties

Variational data assimilation with the YAO platform for hydrological forecasting <i>Amara Abbaris, Hammouda Dakhlaoui, Sylvie Thiria & Zoubeida Bargaoui</i>	3
Climate change scenarios and its impact on water resources of Langtang Khola Basin, Nepal <i>Tirtha Raj Adhikari, Lochan Prasad Devkota & Arun Bhakta Shrestha</i>	9
Assessment of the intrinsic vulnerability of agricultural land to water and nitrogen losses: case studies in Italy and Greece <i>V. G. Aschonitis, M. Mastrocicco, N. Colombani, E. Salemi & G. Castaldelli</i>	14
Modelling the shrub encroachment in a grassland with a Cellular Automata Model <i>D. Caracciolo, L. V. Noto & E. Istanbuluoglu</i>	20
Regional prediction of basin-scale brown trout habitat suitability <i>Serena Ceola & Alessio Pugliese</i>	26
A model of river bank deformations under the simultaneous effect of waves from a hydropower plant and warming <i>Elena Debolskaya</i>	32
Assessment of land-use change on streamflow using GIS, remote sensing and a physically-based model, SWAT <i>José Yure G. dos Santos, Richarde Marques da Silva, José G. Carvalho Neto, Suzana Maria G. L. Montenegro, Celso A. G. Santos & Alexandro M. Silva</i>	38
A modelling framework to project future climate change impacts on streamflow variability and extremes in the West River, China <i>Yuan Fei, Tung Yeou-Koung & Ren Liliang</i>	44
Identification of low-flow parameters using a hydrological model in selected mountainous basins in Japan <i>Kazumasa Fujimura, Yoshihiko Iseri, Shinjiro Kanae & Masahiro Murakami</i>	51
Trends in extreme temperature and precipitation in Muscat, Oman <i>Luminda N. Gunawardhana & Ghazi A. Al-Rawas</i>	57
Estimation of hydrological response of a small Mediterranean watershed to fire by data analysis and a modelling approach <i>Lyudmila Lebedeva, Olga Semenova & Nathalie Folton</i>	64
Water budget comparison of global climate models and experimental data in Onça Creek basin, Brazil <i>D. C. D. Melo, I. S. P. Marin & E. Wendland</i>	70
Model to assess the impacts of external drivers on the hydrology of the Ganges River Basin <i>Lal Muthuwatta, Aditya Sood & Bharat Sharma</i>	76
Water management and productivity in planted forests <i>Jami E. Nettles</i>	82

Where does blue water go in the semi-arid area of northern China under changing environments? <i>Liliang Ren, Fei Yuan, Bin Yong, Shanhu Jiang, Xiaoli Yang, Luyan Gong, Mingwei Ma, Yi Liu & Hongren Shen</i>	88
Hydrodynamic characterization of soils within a representative watershed in northeast Brazil <i>Erika G. Sales, Cristiano Das N. Almeida, Amanda S. Farias & Victor H. R. Coelho</i>	94
Discrete wavelet transform coupled with ANN for daily discharge forecasting into Três Marias reservoir <i>Celso A. G. Santos, Paula K. M. M. Freire, Gustavo B. L. Silva & Richarde M. Silva</i>	100
Future projections of extreme precipitation using Advanced Weather Generator (AWE-GEN) over Peninsular Malaysia <i>A. H. Syafrina, M. D. Zalina & L. Juneng</i>	106
River-bed erosion due to changing boundary conditions: performance of a protective measure <i>Donatella Termini</i>	112
The role of predictive uncertainty in the operational management of reservoirs <i>E. Todini</i>	118
Modelling approach for the rainfall erosivity index in sub-humid urban areas in northern Algeria <i>Imane Touaibia, Nekkach Abderrahmane Guenim & Benina Touaibia</i>	123
Hydrological simulations driven by RCM climate scenarios at basin scale in the Po River, Italy <i>R. Vezzoli, M. Del Longo, P. Mercogliano, M. Montesarchio, S. Pecora, F. Tonelli & A. L. Zollo</i>	128
Parametric uncertainty or hydrological changes? <i>F. Viola, L. V. Noto & D. Pumo</i>	134
Heat and dry islands observed over Jakarta, Indonesia, in 2012 <i>Hasti Widyasamratri, Kazuyoshi Souma, Tadashi Suetsugi, Hiroshi Ishidaira, Yutaka Ichikawa, Hiroshi Kobayashi, Ichiko Inagaki & Kazuhiro Kakizawa</i>	140
Evaluation of the effects of underlying surface change on catchment hydrological response using the HEC-HMS model <i>Cheng Yao, Lu Chang, Jie Ding, Zhijia Li, Dong An & Yuxia Zhang</i>	145

2 Floods, droughts and water risks in a changing socio-hydrological context: Feedbacks between water resources and social systems

Identification of rainfall triggering damaging hydrogeological events: a methodological approach applied to Calabria (Italy) <i>Luigi Aceto & Olga Petrucci</i>	153
Evaluation of the best fit distribution for partial duration series of daily rainfall in Madinah, western Saudi Arabia <i>Fahad Alahmadi, Norhan Abd Rahman & Mohamed Abdulrazzak</i>	159
Climate change impact on flood hazard <i>Mitja Brilly, Katarina Kavčič, Mojca Šraj, Simon Rusjan & Andrej Vidmar</i>	164
Flood hazard maps in Matucana village under climate change scenarios <i>Juan W. Cabrera Cabrera & Leonardo F. Castillo Navarro</i>	171
Dealing with variability in water availability: the case of the Verde Grande River basin, Brazil <i>B. Collischonn, A. V. Lopes & A. R. Pante</i>	176

A probabilistic model for predicting seasonal rainfall in semi-arid lands of northeast Brazil <i>Bernardo B. Da Silva, Célia C. Braga, Suzana M. G. L. Montenegro, Vicente De Paulo R. Da Silva, Leidjane M. M. De Oliveira & Francisco De Assis S. De Sousa</i>	182
The interplay between human population dynamics and flooding in Bangladesh: a spatial analysis <i>Giuliano Di Baldassarre, Kun Yan, Md. Ruknul Ferdous & Luigia Brandimarte</i>	188
Effects of minor drainage networks on flood hazard evaluation <i>Alessio Domeneghetti</i>	192
Analysis of flash flood scenarios in an urbanized catchment using a two-dimensional hydraulic model <i>F. Dottori, F. Grazzini, M. Di Lorenzo, A. Spisni & F. Tomei</i>	198
Developing tools to link environmental flows science and its practice in Sri Lanka <i>N. Eriyagama & K. Jinapala</i>	204
The ensemble scenarios projecting runoff changes in large Russian river basins in the 21st century <i>Alexander G. Georgiadi, Nikolai I. Koronkevich, Irina P. Milyukova & Elena A. Barabanova</i>	210
Optimal integrated management of groundwater resources and irrigated agriculture in arid coastal regions <i>J. Grundmann, N. Schütze & V. Heck</i>	216
Water risk assessment in China based on the improved Water Risk Filter <i>Gan Hong, Qiu Yaqin, Lu Qiong, Niu Cunwen, Wei Na, Liu Jiajia, Gan Yongde, Zhou Na & Ding Xiangyi</i>	222
Socio-economic effect on socially deprived communities by developing drinking water quality problems in arid and semi-arid area of central Rajasthan <i>I. Husain, J. Husain & M. Arif</i>	229
Water resources management: traditional technology and communities as part of the solution <i>J. Hussain, I. Husain & M. Arif</i>	236
Small watershed management as a tool of flood risk prevention <i>Jiri Jakubinsky, Radka Bacova, Eva Svobodova, Petr Kubicek & Vladimir Herber</i>	243
Multi-model ensemble hydrologic prediction and uncertainties analysis <i>Shanhu Jiang, Liliang Ren, Xiaoli Yang, Mingwei Ma & Yi Liu</i>	249
Changing glacial lakes and associated outburst floods risks in Nanda Devi Biosphere Reserve, Indian Himalaya <i>Suraj Mal & R. B. Singh</i>	255
Feedback between societal change and hydrological response in Wadi Natuf, a karstic mountainous watershed in the occupied Palestinian Westbank <i>Clemens Messerschmid</i>	261
Methodologies for hydraulic hazard mapping in alluvial fan areas <i>Luca Milanese, Marco Pilotti, Roberto Ranzi & Giulia Valerio</i>	267
An integrated water resources management strategy for Al-Ain City, United Arab Emirates <i>Mohamed Mostafa Mohamed</i>	273
Panta Rhei: an evolving scientific decade with a focus on water systems <i>Alberto Montanari, Serena Ceola & Emanuele Baratti</i>	279
Assessing risks for integrated water resource management: coping with uncertainty and the human factor <i>M. J. Polo, C. Aguilar, A. Millares, J. Herrero, R. Gómez-Beas, E. Contreras & M. A. Losada</i>	285

Shortage and surplus of water in the socio-hydrological context <i>A. Schumann & D. Nijssen</i>	292
Water risk assessment for river basins in China based on WWF water risk assessment tools <i>Na Wei, Yaqin Qiu, Hong Gan, Cunwen Niu, Jiajia Liu, Yongde Gan & Na Zhou</i>	299

3 Water resources: Monitoring, integrated assessment and management

Impact of climate change on evaluation of future water demand in the Euphrates and Aleppo basin, Syria <i>Alaa Alden Alazzy, Haishen Lü & Yonghua Zhu</i>	307
Electricity vs Ecosystems – understanding and predicting hydropower impact on Swedish river flow <i>Berit Arheimer & Göran Lindström</i>	313
Assessing basin heterogeneities for rainfall–runoff modelling of the Okavango River and its transboundary management <i>Verena Baumberg, Jörg Helmschrot, Thomas Steudel, Hendrik Göhmann, Christian Fischer & Wolfgang-Albert Flügel</i>	320
Developing a dynamic framework to examine the interplay between environmental stress, stakeholder participation processes and hydrological systems <i>Gemma Carr, Günter Blöschl & Daniel P. Loucks</i>	326
Hydrogeological characterization of peculiar Apenninic springs <i>Federico Cervi, Marco Marcaccio, Francesca Petronici & Lisa Borgatti</i>	333
Along-the-net reconstruction of hydropower potential with consideration of anthropic alterations <i>A. Masoero, P. Claps, E. Gallo, D. Ganora & F. Laio</i>	339
Characterization of sub-daily rainfall properties in three raingauges located in northeast Brazil <i>J. V. Coutinho, Cristiano Das N. Almeida, Angelo M. F. Leal & Luis R. Barbosa</i>	345
Marrying Hydrological Modelling and Integrated Assessment for the needs of Water Resource Management <i>B. F. W. Croke, R. S. Blakers, S. El Sawah, B. Fu, J. H. A. Guillaume, R. A. Kelly, M. J. Patrick, A. Ross, J. Ticehurst, R. Barthel & A. J. Jakeman</i>	351
Impacts of drought on water quality: the case of aquifers in eastern Algeria <i>Larbi Djabri, Saad Bouhsina, Azzedine Hani, Antoniopulido Bosch, Jacques Mudry & Mohamed Cherif Djouamaa</i>	357
The origins of water sources in the region of Annaba: confirmation using isotopic tools <i>Lassaad Ghrieb, Larbi Djabri, Hicham Zerrouki, Azzedine Hani & Antonio Pulido Bosch</i>	363
The investigation of sediment processes in rivers by means of the Acoustic Doppler Profiler <i>M. Guerrero</i>	368
Next stop, implementation: collaborative monitoring to inform adaptive policy-making and implementation <i>Leon M. Hermans, Marjolijn Haasnoot & Jan H. Kwakkel</i>	374
Evaluation of surface water dynamics for water-food security in seasonal wetlands, north-central Namibia <i>Tetsuya Hiyama, Tetsuji Suzuki, Miho Hanamura, Hiroki Mizuochi, Jack R. Kambatuku, Johanna N. Niipele, Yuichiro Fujioka, Takeshi Ohta & Morio Iijima</i>	380

Coupling hydrology, geochemistry and hydrodynamics towards rational management of discontinuous aquifers: application to the Ursuya massif (Basque Country, France) <i>J. Jaunat, F. Huneau, A. Dupuy, H. Celle-Jeanton & P. Le Coustumer</i>	386
Truth concealed behind “Zero Increase of Total Water Use” and coordination approach of socio-economic and eco-environmental water uses in the Weihe River Basin, China <i>Yangwen Jia, Na Wei, Chunfeng Hao, Jinjun You, Cunwen Niu & Yaqin Qiu</i>	392
Using the Priestley-Taylor expression for estimating actual evapotranspiration from satellite Landsat ETM + data <i>Abdelkrim Khaldi, Abdelkader Khaldi & Abderrahmane Hamimed</i>	398
Analysis of drought characteristics for improved understanding of a water resource system <i>Amy T. Lennard, Neil Macdonald & Janet Hooke</i>	404
Hydro-economic optimization under inflow uncertainty using the SDP_GAMS generalized optimization tool <i>Hector Macian-Sorribes & Manuel Pulido-Velazquez</i>	410
Establishing ecological and social continuities: new challenges to optimize urban watershed management <i>V. Mitroi, A. De Coninck, B. Vinçon-leite & J-F. Deroubaix</i>	416
Hydrological studies in experimental and representative basins in Pernambuco State, Brazil <i>Suzana M. G. L. Montenegro, Bernardo B. Da Silva, Antônio C. D. Antonino, José R. S. Lima, Eduardo S. De Souza, Leidjane M. M. De Oliveira, Albert E. S. S. De Moura & Rodolfo M. S. Souza</i>	422
The impact of poor governance on water and sediment quality: a case study in the Pitimbu River, Brazil <i>Lucio Moreira, Jan Adamowski, Susan Gaskin & Andrea Saraiva</i>	429
Probabilistic assessment of the rainwater harvesting potential of schools in South Africa <i>J. G. Ndiritu, S. McCarthy & N. Tshirangwana</i>	435
Social and ecological aspects of the water resources management of the transboundary rivers of Central Asia <i>Parviz Normatov</i>	441
Urban stormwater source control policies: why and how? <i>Guido Petrucci, Jose-Frederic Deroubaix & Bruno Tassin</i>	446
Risk management frameworks: supporting the next generation of Murray-Darling Basin water sharing plans <i>G. M. Podger, S. M. Cuddy, L. Peeters, T. Smith, R. H. Bark, D. C. Black & P. Wallbrink</i>	452
Contribution of hydrochemistry to the characterization and assessment of groundwater resources: the case of Tebessa alluvial aquifer (Algeria) <i>Nassima Sedrati & Larbi Djabri</i>	458
Multi-criteria multi-stakeholder decision analysis using a fuzzy-stochastic approach for hydrosystem management <i>Yohannes H. Subagadis, Niels Schütze & Jens Grundmann</i>	464
Groundwater governance in Asia: present state and barriers to implementation of good governance <i>Tadashi Tanaka</i>	470

Hydrogeochemical characterization of a shallow groundwater system in the weathered basement aquifer of Ilesha area, southwestern Nigeria <i>Moshood N. Tijani, Saheed A. Oke & Akinyemi T. Olowookere</i>	475
New monitoring technique for rapid investigation of nitrates pollution in aquatic systems <i>Maria Cristina Trifu & Valeria Daradici</i>	481
Simulation of blue and green water resources in the Wei River basin, China <i>Zongxue Xu & Depeng Zuo</i>	486
A prototype platform for water resources monitoring and early recognition of critical droughts in Switzerland <i>Massimiliano Zappa, Luzi Bernhard, Christoph Spirig, Martin Pfaundler, Kerstin Stahl, Sylvia Kruse, Irmi Seidl & Manfred Stähli</i>	492
Classical Karst hydrodynamics: a shared aquifer within Italy and Slovenia <i>L. Zini, C. Calligaris & E. Zavagno</i>	499
4 Optimization of water resources systems: changing boundary conditions, targets and criteria of water management	
Genetic algorithms optimization of hedging rules for operation of the multi-purpose Ubonratana Reservoir in Thailand <i>Chuthamat Chiamsathit, A. J. Adeloje & B. Soundharajan</i>	507
Investigation of sustainable development potential for Ulubey Aquifer System, Turkey <i>Unsal Burcu & Yazicigil Hasan</i>	513
Environmental equity as a criterion for water management <i>Maria Grande, Carlos Galvão, Livia Miranda & Iana Rufino</i>	519
Reservoirs performances under climate variability: a case study <i>A. Longobardi, M. Mautone & C. De Luca</i>	526
Strategic decision making under climate change: a case study on Lake Maggiore water system <i>M. Micotti, R. Soncini Sessa & E. Weber</i>	532
Green-roof as a solution to solve stormwater management issues? Assessment on a long time period at the parcel scale <i>P.-A. Versini, G. Petrucci & B. de Gouvello</i>	538
Key word index	545
Author index	549
